

Product Description

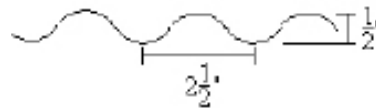

Ideal Products offers Deep Corrugated Sheets made from Aluminum, Stainless Steel and Aluminum Painted Moisture Retarder with Polysurlyn. They are available in 1 ¼" by ¼" deep and 2 ½" by ½" deep profiles, with a smooth or stucco embossed finish. The Aluminum and Stainless Steel used to produce our Deep Corrugated Sheets meet ASTM B-209 standard (for Aluminum) and ASTM A-240 Standard (for Stainless Steel).

1 ¼" Deep Corrugated

2 ½" Deep Corrugated

	Thickness	Recommended Profile
Aluminum	0.016"	1 ¼"
	0.020"	1 ¼" / 2 ½"
	0.024"	2 ½"
	0.032"	2 ½"
Stainless Steel	0.010"	1 ¼"
	0.016"	1 ¼" / 2 ½"
	0.020"	2 ½"

All sheets are available in either a smooth or stucco embossed finish. Our Deep Corrugated Sheets come in a standard width of 33" wide with no length restriction.

Product Application

Deep Corrugated Sheets are designed for the protection and weather proofing of vessels and tanks. It can also be used to protect equipment and insulation in abusive areas. Both Aluminum and Stainless Steel are offered in multiple gauges and profiles. It is important to identify the type of environment that the project is being done in, to ensure the material and gauge are properly selected.
